TESSOLVE SEMICONDUCTOR LABORATORY- TESSOLVE Semiconductor Private Limited

Tessolve Semiconductor Private Limited, a leading provider of engineering services and solutions, recognizes the significance of collaboration and innovation in driving technological advancements. Tessolve partners with industry-supported laboratories to enhance its research and development capabilities. The ECE department has joined hands with the Tessolve Semiconductor Private Limited in their core engineering field with an objective to strengthen interaction with industries, to keep our students updated with the latest trends, to enhance the knowledge and inculcate the practical exposure. The industry personnel's involve in the design of value added courses as an additional input to the students about the current practices. Industry Institute Interaction continuously supplies input to better teaching-learning process creates awareness among the students about the environment of industry, provide practical exposure to students and develop self-confidence in students to become entrepreneurs. By supporting industry-backed laboratories, Tessolve Semiconductor Private Limited demonstrates its commitment to advancing semiconductor engineering, driving innovation and shaping the future of the industry.

INTEL Intelligent Systems and IOT Laboratory- Retech Solutions Pvt. Ltd and INTEL Corporation

The Centre of Excellence in Embedded Systems and IoT by Retech Solutions Pvt. Ltd and Intel Corporation is a research and development center focused on advancing the fields of embedded systems and the Internet of Things (IoT). Retech Solutions Pvt. Ltd and INTEL Corporation provides researchers, students, and industry professionals with access to cutting-edge technology, tools, and resources to help them develop new and innovative solutions in embedded systems and IoT.

It also offers training programs, workshops, and other resources to help individuals develop the skills and knowledge necessary to work in these fields. The goal of the Centre of Excellence in Embedded Systems and IoT by Retech Solutions Pvt. Ltd and INTEL Corporation is to drive advancements in these areas, and to help create a pipeline of talented professionals who are equipped to tackle the challenges of embedded systems and IoT.

Retech Solutions Pvt. Ltd and INTEL Corporation have a strong commitment to advancing technology and innovation through collaborations with industry-supported laboratories. Retech Solutions Pvt. Ltd and INTEL Corporation, a global leader in the technology industry, recognizes the importance of collaboration and innovation in driving technological advancements. By supporting industry-backed laboratories, Retech Solutions Pvt. Ltd and INTEL Corporation demonstrates its dedication to advancing technology and innovation, driving economic growth, and shaping the future of the tech industry.
